POLITICAL JUGGERNAUTS: A QUANTITATIVE ANALYSIS OF CANDIDATES IN THE 2019 LOK SABHA ELECTIONS

1   INTRODUCTION

1.1 Overview

This book explains the global economy and uncovers the facts behind the hype. Globalization is not a vehicle without a driver, or an irresistible and inevitable force of nature, as political leaders and pundits would have us believe. Juggernaut Politics identifies the actual institutions and people controlling the system and explains how the globalization machine really works. It exposes the hidden face of the unregulated global market and its unequal trade treaties and domination by big money. The players that benefit are the transnational corporations, the super-managers and subservient politicians but also the ideologists who justify and defend the system – the free market economists and media pundits propagating the Globalization Creed. What has been ignored is the will of people who recognize that the benefits of globalisation do not include them and that these people would begin to hold political leaders more and more accountable.

1.2 Purpose

The Indian voter is incredibly intelligent. Just when you believe you've hacked into his mind and can manipulate him/her at whim, you get yorked by a googly (the inconsistent cricketing metaphor is deliberate, to prove you cannot take the Indian voter for granted).

Everybody thought that the BJP+allies would annihilate the Opposition in the Maharashtra and Haryana assemblies. Incumbents, pundits and pollsters were united in their chorus — 225+ in Maharashtra and 75+ in Haryana, an astonishing four/fifth majority in both elections.

## The 'Modi Delta' is a Fantastic 12, Perhaps Even 15, Percentage Points!

- We've all grappled with a consistently unusual phenomenon — the BJP scores a considerably higher vote share when Prime Minister Modi is on the ballot (ie, when the voter is seeking to give him a direct mandate), which falls away dramatically when he is canvassing for votes for his party in state elections.

- ✓ Public libraries equipped with computers allow patrons to seek books and articles in periodicals, newspapers, and web sites on any given political subject.

Conclusion

Politics must not be left to politicians who exploit the country. We as people should come together and take politics in our hands. The youth must be bold to participate in politics and make corruption disappear. It is important to understand politics in order to raise our voice against injustice done by politicians in the name of welfare. Thank you all for listening to my speech!
